

## The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

### GENERAL NEWS.

Irish emigrants during 1904 reached a total of 20,676, the smallest number in any year since 1851. America absorbed three-fourths of 1904's emigration, or 22,007.

Lord Kitchener's administration in India, by its utter unaccountability and crass civic stupidity, is accused of provoking mutiny and leading to disloyalty among the natives.

Frank Short, aged 17, attempted to rescue his chum, Edwin Anderson, who had fallen into the tidal canal at Alameda, Cal. Both were drowned. Short's effort is said to have been an instance of genuine, unaffected heroism.

The enormous volume of sulphurous vapors from Vesuvius mingled at great heights with ordinary atmospheric vapor. Upon the congelation of the latter both fell in the form of a stinking, acrid rain extremely offensive to every sense, and polluting everything that it touched.

Fifty-seven cases of smallpox are reported in the farming districts of Idaho and Bridge, in Uinta county, Wyoming, and the southern part of that county has been quarantined. The source of the epidemic, it is reported, was an abandoned pesthouse in the mining camp at Cumberland, which a ranchman appropriated, using some of the partitions in his own dwelling and selling timbers to neighbors.

### NORTHWEST NEWS.

The registration in Grant county, although incomplete, shows 1349; republicans, 847; democrats, 412; scattering, 70. The vote two years ago was 1710. The county clerk estimates the complete returns at 1750.

Unless the Walla Walla council decides to increase the wages of laborers in the water department so they will receive \$2.50 a day the men threaten to strike. The eight-hour day is not welcomed because of the consequent decrease in wages.

Reports from Latah and Nez Perce counties, Idaho, indicate that the damage to fall grain by the freeze last month, will amount to 25 per cent. In some instances farmers will reseed, but in many cases the wheat is not damaged bad enough to pay for reseeding.

Robert Simpson, of Hillsboro, before Judge McBride, entered a plea of guilty to selling liquor at Banks without a license and was fined \$200. Walter Beard and Albert Miner, also without a license and was fined \$200, with a like offense, and will appear for trial next Monday.

By far the most severe epidemic of typhoid fever that has ever occurred in Oregon is that which is now abating in Eugene. During the month of March only 29 cases were reported, but in February there were 190 cases and in January 78, making a total in three months of 297 cases.

The government is negotiating for land about Lake Clealum, which will be used for a reservoir to store water for the great irrigation projects in Yakima valley. No deals are reported closed. If the same offered by the government, which are believed to be reasonable, are not accepted condemnation proceedings will be instituted. It is estimated that about 1000 acres will have to be purchased.

## FOR APRIL

We have a longer list of better bargains than ever, including wheat lands, stock ranches and city property. Any kind of a business proposition you want. Samples: 160 acres at \$4 per acre; will raise wheat or corn; 60 acres broken. One mile from railroad.

Half section in wheat. Will raise 12,000 bushels this year. \$37.50 per acre.

## INDIANS NEED HELP

PIUTES AND SNAKE ALLOT-  
TED IN HARNEY COUNTY.

Burns Paper Says They Are Struggling Along in the Effort to Become Self-supporting, But They Need State or County Aid—Men Work in Harvest and Shear Sheep, But Their Land Is Poor and They Are Forced to Beg in Town at Times.

In Harney county is a small settlement of Piute and Snake river Indians, which were allotted a tract of land 10 years ago. These Indians are struggling along in their way trying to make homes upon the land. Many of them work in harvest and shear sheep in the spring of the year, but they are making no progress and the Burns Times-Herald of last week makes a plea for state or county aid for the Indians, in order that they may continue to live upon their land and become self-supporting. The Herald says:

In 1886 an allotment of land in Harney valley was made to the Indians of this section to settle upon and make homes for themselves. It is not possible for the Indian to make use of this claim without co-operation with the whites, as they are dependent upon them for their living, which they have to secure in the little towns of Burns, Harney and Drewsey, hence the non-fulfillment of the obligation on their part.

The squaws bear their young and toil to feed them, and would devote time and strength to several branches of industry which would help to secure their homes: if helped to do so. These squaws are susceptible of training in pursuits which would be welcomed by them, if the task were assigned to persons who would make this work their loving care.

The Indian, like his white brother, will not be driven only as the superiority of numbers compel it.

Should we not as a humane people, make the uplifting of this "remnant of the original owners of the country" our loving care, and try to help them to help themselves?

They are as children in giving their confidence and may be robbed without knowing it.

A small appropriation from the state or county would adjust this little matter and prove that we, the people of Harney county, are awake to the duties of a highly civilized people.

### IDAHO WILL CONTEST FOR LAND

Files on 2500 Acres to Cover University Grants.

Says the Lewiston Teller: Now comes the state of Idaho through its representative, C. J. Munson, and makes a filing on about 2500 acres of the land recently thrown open in townships 35 and 33—east, east, to cover university grants. The filings show that 1463.77 acres of the state selection is free, but that 1012.13 acres is in conflict with homestead entries already accepted.

There is only one filing made that the state will not contest, and that is one, the entry of Charles W. Hartman, the pioneer settler of the township. Mr. Hartman settled on his land in 1896, and has made his home there ever since. The others are very recent arrivals and the state will contest their rights.

It appears that the timber and stone entrymen who spent weary days and nights in the vigil at the land office door will not reap any benefit for their trouble. The best they had was a contest and now that the state has stepped in they have not even that, for any merit that might be in their claim would in the end accrue to the benefit of the state.

The most rational remedy for coughs and colds is Kennedy's Laxative Honey and Tar. It acts on the bowels as a mild cathartic—expels all cold from the system. Cuts all phlegm out of the throat, relieves coughs, colds, croup, whooping cough, etc. An ideal remedy for children—equally good for adults. Sold by Tallman & Co.

### SIBERIAN POST BUSY.

Vladivostok Agent Says Vessels Have to Wait Weeks to Get to Dock.

Writing from Vladivostok an agent for one of the steamship companies says that the close of the war with Japan has seen a great influx of goods of all kinds into that port during the past three months, the greater part being foodstuffs, says the Oregon Daily Journal.

So many ships have arrived from China, Japan and the United States, he says, that the facilities for handling cargoes are altogether inadequate, vessels that ordinarily could easily discharge in three days being delayed three or four weeks, awaiting their turn to come to the wharf. Although a great deal of merchandise has already been landed, the congestion still continues and bids fair to be almost as great for some months.

The agent says that it is probable now that the discrimination in tariff laws and railway rates in favor of Port Arthur and Dainy, which prevailed before the war, no longer exists, and Vladivostok will become more and more important as a port of entry for eastern Siberia.

While the bay freezes over in the winter the agent says that ships can freely enter and depart through the channel kept open by the icebreakers. He declares that the ice frequently serves as useful purposes, in that vessels for which there is no room at the wharves can discharge their cargoes on the ice.

It is supposed that the harbor will be free of ice by the time the British steamship Cambrian King reaches there from Portland. She sailed about two weeks ago.

### WHERE DOES ROAD MONEY GO?

Question for Baker County Taxpayers to Consider.

Says the Baker City Herald: To any one who knows what roads are and what they could be it is very evident that all this money which the county claims to be spending on the improvements of the roads is either a myth or expended on roads that are never traveled. The condition of the roads from this city to Cornucopia are bad, very bad. Not only are the roads bad but the bridges are in worse condition. A trip over this road will convince any fair-minded taxpayer that there is nothing to show for the money expended.

The bridges in the lower Powder valley on the Cornucopia road are almost dangerous. The coverings are worn off and in some instances the approaches are gone entirely and makeshift aprons substituted. One small bridge which could be rebuilt in a day is in a deplorable condition. The approach is gone and in its place is substituted a dozen 2-inch planks laid lengthwise. One of these planks is broken and unless your off horse is a tight-rope walker you can't cross the bridge without danger of being thrown out into the ditch.

The weather conditions are no excuse for allowing the bridges to get in such shape. These bridges could be fixed up at any time and at a very small cost. They are really dangerous in their present condition.

### THREE EARTHQUAKE SHOCKS.

Tremors Distinctly Felt From North to South.

Seismic disturbances gave a distinct shake to many of the taller buildings in Boise yesterday no less than three times, says the Statesman. The first occurred at 8:30 in the morning, the second at 12:03 noon and the last time at 1:30 in the afternoon.

The shocks were felt quite distinctly in the taller buildings, many of the occupants of the upper floors of the federal block and structure and the Sonna building observing the phenomenon. They state it was even more distinct than the slight shock that was felt in Boise last autumn. The tremor that came at the noon hour was also felt, among other places, at the Sherman house.

While the shock was very light, it was plainly discernable to those who chanced to be seated in the proper position and engaged in desk work. Chandeliers are said to have swung some four or five inches from the trembling of the earth.

The shock that was felt in Boise a few months ago set the buildings a-tremble from east to west, and all the swinging of the chandeliers and tables at that time was in that direction. The tremors yesterday were from north to south.

### ENORMOUS PRIMARY BALLOT.

Republican Ballot for Primaries in Multnomah County Contains 116 Names.

The official republican ballot for the primaries in Multnomah county is an enormous sheet of pink paper 14x22 inches in size and contains 116 names.

It will require from two to five minutes for each elector to properly mark his ballot, according to the estimate of election officials.

The democratic ballot for the same county and precinct contains but 59 names, although the size of the ballot is the same.

Don't tie a cough or a cold up in your system by taking a remedy that binds the bowels. Take Kennedy's Laxative Honey and Tar. It is different from all other cough syrups. It is better. It opens the bowels—expels all cold from the system, relieves coughs, colds, croup, whooping cough, etc. An ideal remedy for young and old. Children like it. Sold by Tallman & Co.

### Hotel Pendleton Arrivals.

E. Y. JUDD, President.  
F. B. CLOPPON, Secretary.

### NOTICE TO STOCKHOLDERS.

Pendleton, Ore., March 1, 1906. Notice is hereby given to the stockholders of the Pendleton Woolen Mills that a meeting will be held Tuesday, May 1, 1906, at the office of the company in Pendleton, Oregon, at 4 p. m.

E. Y. JUDD, President.  
C. H. CARTER, Secretary.

### TO BUILD TOLL ROAD.

Remote Corner of Oregon to Be Opened Up to the World.

To build a toll wagon road paralleling it with a telephone line, from a point 10 miles west of Leland, on the line of the S. P. railroad, in Josephine county, to Port Orford, on the Curry county coast, a total distance of about 90 miles, is the stated purpose of a newly formed corporation, represented by Captain E. B. Burns, says the Jacksonville Times.

The corporation takes the name of the Leland, Illabe and Port Orford Wagon and Toll Road and Telephone company. Associated with Captain Burns in the initiatory step are two other Curry county men, Jacob Frye, of Illabe, and J. D. Cooley, of Agnes. The capital stock is fixed at \$100,000, divided into as many shares. For the present Leland will be the headquarters of the company. The construction of the proposed road would tap one of the richest mineral and timber belts on the Pacific coast, hence the project is of the greatest importance to all of southwestern Oregon.

Living indoors so much during the winter months creates a sort of a stuffy, want-of-ozone condition in the blood and system generally. Clean up and get ready for spring. Take a few Early Risers. These famous little pills cleanse the liver, stomach and bowels and give the blood a chance to purify itself. They relieve headache, sallow complexion, etc. Sold by Tallman & Co.

### Gift to Umatilla University.

A gift of \$2000 was made by an unknown donor this week. \$1000 of which is to be used as a loan fund for needy students, and \$1000 of which is to be used in installing a department of electrical engineering in the university.

What good does it do to eat if your stomach fails to digest the food? None. It does you harm—causes belching, sour stomach, flatulence, etc. When the stomach fails, a little Kodol Dyspepsia Cure after each meal will digest what you eat and makes the stomach sweet. Tallman & Co.
